### Nearing the End.

The men who are running for office  
in this county are anxiously counting  
the days when the campaign will be  
over. This bi-annual canvass by the  
men who are running for office is  
anything but a pleasant job, and  
nobody gets more tired of the farce  
than those who are actually engaged  
in it. It would seem, seeing that  
this is the age of trusts, that there  
would be a candidate trust forced;  
a society for the protection of office  
seekers, during the sessions of which  
they could meet and sweat solemn  
outbursts over to again waste their sub-  
stance on cheap cigars and poor  
whiskey, bought at prohibition prices.  
If they stop to think of the matter  
seriously they realize that it is an  
insult to the voter if he is capable of  
being lulled, and when they spend  
their money in this way they are  
dragging themselves down to the  
same level as the man they are  
attempting to bribe.

### Will Give a Dance.

The National Union of Railway  
Trackmen will give a dance at Bah-  
cock on Thursday evening, Nov. 29th,  
to which the public is extended a  
cordial invitation.

Judge Chas. Hahn of Marshfield  
was a business visitor in the city on  
Monday.

### A Surprise Party.

Mr. and Mrs. Nicholas White were  
surprised last Saturday evening  
about eight o'clock, when twenty of  
their neighbors and friends gathered  
at their home in the First ward to  
help Mr. White celebrate his forty-  
third birthday. Games and joking  
were the attractions of the evening.  
Lunch was served at twelve o'clock,  
consisting of coffee, ice cream and  
cake. These present were Mr. and  
Mrs. Herman Smith, Mr. and Mrs.  
Alfred Canning, Mr. and Mrs.  
William Love, Mr. and Mrs. F. Wit-  
helm, Mr. and Mrs. William Lake,  
Mr. and Mrs. J. H. Passineau, Mr.  
and Mrs. L. Miller, Mrs. Maroon,  
and son, Mrs. Anderson and daughter  
Emma Manning and M. Maroon.  
The crowd presented Mr. and Mrs.  
White with a Morris chair. Every  
one had a good time and bid Mr. and  
Mrs. White good-night wishing them  
many more such pleasant occasions.

### Old Paper Discontinued.

The weekly edition of the Mil-  
waukee Sentinel, renamed some years  
ago "The Farmers' Sentinel," was  
discontinued last week and the  
subscription list transferred to the  
Wisconsin Agriculturist. The  
paper has been in existence for 70  
years, being one of the oldest papers  
in the state. This transfer leaves  
the Agriculturist the only farm paper  
of note in the state.

## WAUSAU OUTCLASSED

Grand Rapids Wins at Football  
By a Score 17 to 0 on Sun-  
day Afternoon.

Completely outclassed in every  
point of the game the Wausau foot-  
ball team went down to defeat at the  
hands of the local eleven, Sunday  
afternoon by a score of 17 to 0. The  
game was a good exhibition of foot-  
ball for both teams were composed of  
players who were familiar with the  
fine points of the game, and who have  
at some time or other played with the  
best teams of both cities.

Wausau had the advantage in  
weight but Grand Rapids was so  
much faster in their formations that  
they played the visitors completely  
off their feet, going thru their line  
at will and skirting their ends for  
good gains, while Wausau could not  
gain at any stage of the game only  
making their required 10 yards but  
once during the whole game.

Wausau won the toss, and chose  
the kickoff, Grand Rapids taking the  
west goal. Promptly at 3 o'clock,  
Dionne kicked off the ball 20 yards to  
their own 40 yard line. Then by  
straight line bucking and short end  
runs they carried the pig skin to  
Wausau's 30 yard line there losing it  
on a fumble. But Wausau failed to  
gain, putting to Chose who was  
downed in his tracks on his own 40  
yard line. Once more Grand Rapids  
advanced the ball rapidly, finally  
pushing Brennan over for the first  
touchdown. Chose missed goal. Wau-  
sau again kicked to Grand Rapids  
who advanced the ball into Wausau's  
territory where it remained until the  
end of the first half. Score being 5  
to 0.

The second half opened by Grand  
Rapids kicking to Wausau, who fumbled. Odegar of the locals fell on  
the ball on Wausau's 45 yard line and  
in less than three minutes of play  
Bodette was pushed over for the second  
touchdown. This time Chose  
sent the ball squarely over the goal,  
making the score 11 to 0. Wausau  
knowing that it was useless to kick  
to Grand Rapids, kicked the ball  
along the ground in hopes of regain-  
ing it on a fumble which they did,  
but immediately lost it on downs.  
Once more Grand Rapids marched  
down the field for another touchdown  
Akey being the one to carry it over.  
Chose kicked goal. With three min-  
utes left to play Wausau kicked to  
Grand Rapids who advanced the ball  
to the center of the field there losing  
it to Wausau. But Wausau could not  
gain, putting to Grand Rapids who  
were on their way for another touch-  
down when time was called ending  
the game with the ball in Wausau's  
territory. The final score being 17 to  
0. Following is the lineup:

Wausau	Grand Rapids

### M. O. Potter Hurt.

M. O. Potter the cranberry man  
met with a painful accident last  
Wednesday and although there is no  
danger of it resulting seriously, he  
will be incapacitated from doing  
much work for a time.

He was engaged in doing some  
work in the cranberry house and was  
standing on a ladder when he fell,  
and striking on the edge of a barrel,  
fractured his wrist and one rib. As  
Mr. Potter lives about twelve miles  
from the city it was some time before  
surgical assistance could be secured,  
or at least it seemed a long time to  
him, and in the interval he suffered  
considerable pain.

Since reducing the fractures he has  
been getting along nicely.

### Game Was Postponed.

The game of football between the  
local high school team and Wausau  
was postponed or cancelled by the  
Wausau team on Saturday morning.  
The boys from this city were at the  
depot ready to leave when they re-  
ceived the notice of postponement.  
They were somewhat disappointed as  
they had expected to add another  
scrap to their collection.

### Fined for Vagrancy.

James Collins was taken before  
justice Brown on Monday on a charge  
of vagrancy, to which he pleaded  
guilty and paid a fine and costs  
amounting to \$5.35. Collins had  
been about the city for several weeks  
putting in the greatest part of his  
time grafting for drinks and free lunch  
and sleeping wherever he could find  
cover for the night.

### Election Supper.

The members of St. Catherine's  
Guild will serve their usual election  
supper in the Wood County National  
Bank building next the bridge on  
Tuesday evening, Nov. 6th. The  
public is extended a cordial invita-  
tion to attend.

Have you ever eaten Mexican  
Chile? It's a hot dish served at  
Gett's restaurant at all hours at 10  
cents a dish. Drop in after a show  
and try a dish.

### They Need Advice.

Last Wednesday when Governor  
Davidson was in the city the school  
children were allowed to stay out  
that afternoon in order that they  
might go to the opera house and see  
the man and hear him speak. This  
was no more than right. While we  
do not believe in hero worship, we  
think that when a real live governor  
comes to town that the youngsters  
should be allowed to see his mien  
and hear what advice he has to offer  
for occupying the position in society  
that he does.

But it would seem as if the curi-  
osity of the average youngster were  
easily satisfied, for last Wednesday  
the governor had no more than got  
fairly started on his talk, than there  
began a gradual drift among the boys  
for the door. If they had all jump-  
ed up at once and ran out with a  
bang and a clatter, the speaker might  
have taken a few minutes off during  
the general exodus, and then started  
in afresh when things had quieted  
down, but this was not the way it  
was done. There was a continual  
shuttle and scrape of juvenile feet  
that took all the pleasure out of the  
thing and made one wish that the  
kids had been kept in school where  
they belonged.

This occasion was not an exception  
from the usual practice among the  
children. It does not matter whether  
it is a political speech, a Fourth of  
July oration, or Decoration day ser-  
vice, it seems to be the way of doing  
things among the youngsters. We do  
not know how the speaker feels on an  
occasion of this sort, but if he feels  
anything like the people in the  
audience he is in anything but a  
charitable frame of mind.

### A New Rifle.

George Krieger has one of the  
New Auto Rifles manufactured by  
the Remington Arms Co., which is  
claimed to be an exceptionally good  
gun for hunting purposes. The  
weapon is of .25 caliber, high power,  
having an effective range of more  
than 2000 yards. It is a more power-  
ful firearm than the .30-30, which  
has been used so extensively the last  
few years, is automatic in action,  
the simple pulling of the trigger fire  
the gun and reloading it ready  
for the next shot. Those interested  
in an effective firearm for deer hunt-  
ing should stop in to Mr. Krieger's  
place of business and see the new  
rifle.

### ADVERTISED LETTERS.

Ladies. Brandstedt, Miss Minnie  
(2); Frenchman, Mable; Gisch, Miss  
Linda; Knowles, Miss Salara; Miller,  
Mrs. A. E.; Powers, Mrs. Emma;  
Travis, Mrs. Irene; Winganien,  
Miss Jessie.

Gentlemen. Burwell, L. J. Huber,  
Mall (2); Lumley, Otto; Polot, Jim  
(2); Taylor, David.

Senator LaFollette writes from  
Kansas that he will put all the  
strength there is in him in assisting  
to elect Davidson to office. Kansas is  
a good place to work for Davidson's  
election.

### Ted Payne Hurt.

Ted Payne, who is employed in  
the paper mill at the south side, met  
with a painful accident on Thursday.  
He was employed about the back end  
of the machine, and when stepping  
down from an elevated position he  
tripped on a workman's feet that was  
engaged in the mill and was precipi-  
tated thru a hole in the floor. On  
his way down he caught onto a hot  
steam pipe and broke his fall some-  
what. Then he jumped to an adjoining  
grating and got to the ground  
without serious mishap. His in-  
juries consisted in quite severe lacer-  
ations on his hands and neck where he had  
caught hold of and rubbed against  
the steam pipe.

A workman had been engaged in  
removing a portion of the floor where  
it had become rotten, and had got a  
section cut out several feet square,  
and it was thru this space that Mr.  
Payne fell. While he suffered  
considerable pain from the lacerations,  
he considers that he was lucky in escap-  
ing as easily as he did, for had he not  
struck the hot steam pipe he would  
have gone right thru until he had  
landed on the stone some thirty feet  
below.

### Day Secure a Band Leader.

For some time past Gerald Fritz-  
inger has been corresponding with  
F. L. Bliss of Lexington, Mo., with  
a view to securing that gentleman's  
services in directing the Grand Rapids  
Band.

The boys have not a great deal to  
offer a director, but they feel that  
what they have to put up should  
imply a pretty fair man to come here  
and locate. During the past summer  
they played some pretty good concerts  
but they feel that they might do  
better were they under the direction  
of a man who is an expert in this  
line.

It might be stated that Mr. Bliss  
directed the Second regiment band at  
Marshfield for some time, is an expert  
cornetist and violinist and gave good  
satisfaction as a director. Should he  
be secured here our boys expect to be  
able to come out in the spring and  
play some real music.

### Gov. Davidson Here.

Governor Davidson spoke at the  
opera house last Wednesday afternoon  
to a large crowd of people, who had  
assembled to hear what his highness  
had to say. The governor is not the  
best orator that ever struck town,  
neither is he the poorest. He nailed  
several campaign lies, as is usual in  
such cases, and taken altogether his  
listeners went away feeling quite  
well satisfied that he had acquitted  
himself as well as he did.

### Lecture Course Opens.

The first of the series of entertain-  
ments of the Popular Entertainment  
course will occur at the Methodist  
church on Wednesday evening, Oct.  
31. The Earl R. Drake Co. will  
appear on that evening.

Look over suitings and get prices  
of the Grand Rapids Tailoring Co.  
before you invest in a suit of hand-  
made-downs.

### HIGH SCHOOL NOTES.

The football game with the Wausau  
High school that was to be played  
last Saturday at Wausau will be  
played November 11. The reason  
that Wausau gave for postponing the  
game was that the weather was un-  
favorable. That will hardly hold  
water as Saturday was an ideal day  
for a football game. Unless they  
can trump up a better excuse, we will  
be forced to think that they have  
"cold feet" and do not want to play  
if there is any way out of it.

The annual football game with the  
Merrill High school team will be  
played at Merrill November 3. Mer-  
rill has one of the strongest High  
school teams in the state and a victory  
over them will give our boys a good  
chance for the championship of the  
state.

Friday afternoon the Juniors and  
Seniors gave a rhetorical programme  
that was enjoyed by all present.

The Glee Club did not meet Friday  
afternoon on account of the rhetorical  
programme. But hereafter arrange-  
ments will be made so that they can  
meet at least once a week.

Thursday morning Supt. Youker  
gave us a very interesting talk on  
Gallileo, the great scientist, giving us  
a brief history of his life and a few  
of his discoveries, which he illus-  
trated with experiment.

Last Wednesday afternoon a large  
body of the students turned out to  
meet Governor Davidson and hear  
him speak at the Opera House.

### Wolves are Numerous.

Wolves killed three sheep on L. M.  
Nash's farm near Junction City on  
Monday night of last week, this being  
the second time these animals had  
paid to the sheep pasture. The an-  
imals are so bold that they come right  
into the enclosure near the house  
and have also killed and eaten a  
number of geese. The howling of the  
animals can be heard every night and  
the sportsmen of Junction City are  
thinking of making a systematic hunt  
for the wolves.

## A WORD TO YOUNG MEN

Among the advantages we offer young men who  
come to us for their clothes is the assurance that we  
can guarantee them better fit and more style.

In the different parts of the country young men  
of same age vary strikingly in their average Measure-  
ments.

It is not every manufacturer nor every retail  
store that takes these facts into consideration. We do,  
and the Makers who produce our clothing likewise do;  
therefore our stock has been made to order and with  
reference to the requirements of the young men of  
this climate and section of the country

We have your particular size and the overcoat  
and suit that will exactly fit you and look best on  
you. In every every respect we guarantee you com-  
plete satisfaction.

The more critical you are, the more apt we are to please you.

## IN OUR BOYS' CLOTHING SECTION.

We have been particularly careful this season in select-  
ing our Juvenile Clothing. We wanted something that  
we could place an absolute guarantee upon and that would  
result in entire satisfaction to the parents. We are glad  
therefore that we can call your attention to our "BEST  
EVER" suit, one that is absolutely guaranteed in every re-  
spect; we will replace every suit that fails as to guarantee.

Come in and look them over  
the price is reasonable

### Party Feels Weakened.

Secretary Shaw recently made a plea for party loyalty on the ground that it is only thus that political action becomes efficient. There is where he missed it in two directions. The party may be an instrument of corruption and inefficiency and there is another way of making the political activity of the citizen effective. The party whip has lost its force in the presence of the party boss.

Party loyalty fails before the party boss. Parties must be reformed and reformed from time to time. This history of the country proves this. At the present time this crushing and reforming is going on. An incorruptible but loyal party man remarked that "today there are no democrats and a few republicans left." That means that under the old names, new parties are forming. Party ties were never in our political history so loose as now. The solution is found in the independent voter.

The only way to reform a party is to defeat the boss or ring. If it be the majority party, this can only be done by bolting all obvious nominations, preferring the man to the party. The party must today put up men who really represent what the body of the party wants, or go to defeat. Democratic governors are elected in Pennsylvania, Ohio and Massachusetts. Even little Rhody has indulged in the luxury of a democratic executive. Yet all these states are rock ribbed in republicanism.

Wisconsin has gone 100,000 population one year and has 1,000 at the next election. What does this mean but independence? Mark what happened in Philadelphia and many other large cities. The independent voter turned his back against the rings and the ring boss. Hundreds of thousands who voted for Roosevelt turned against their party in local matters, always to the advantage of the community, as in Philadelphia. The only recourse of the independent citizen is to vote for the other man. And if they two prove false, yet again cut them out of the party and support independent candidates, as they did in New York city. - Appleton Journal.

LaFollette's Viroqua Speech. "There will always be need for men in this movement who have not only the power of the initiative, but for men who have the courage to complete the task. We want a man in the executive office of this state who can see an issue and who can devise remedies for the evils he has pledged himself to combat."

"Not only that, but we want a man who can step in between the enemies of the state with a message so strong and so able that the legislature will not dare to refuse to act on its recommendations." The senator has fittingly described the kind of man necessary for governor the description applies with full force to the character and attainments, to the splendid ability and sterling worth of John A. Lathrop, democratic candidate for governor.

### What LaFollette Means.

"Oh, I tell you, fellow citizens, if the American people thoroughly understood the situation you could no longer impose upon them. Never, then, rather than blindly follow any party flag or any party declaration the people would rise up en masse and compel legislation that would wipe out the iniquities these vast corporations are imposing on the people."

What do the foregoing words of Senator LaFollette mean if not that the present deplorable condition is due to the republican party, which has controlled legislation for ten years? If that party is to blame, is not the inference of the Senator that if the people "only knew" etc., they would refuse to follow the republican flag any longer?

### NEKOOSA.

(From the Times.)

This week men have been engaged in installing a new steam pump in the brick building built near the boiler room of the Nekoosa Paper mill for the purpose of fire protection. It is a Knowles Underwriter pump, a powerful apparatus with a pressure of 60 pounds to the inch, capable of pumping 1,500,000 gallons of water in 21 hours. The weight of this powerful pump is five tons, of some capacity as the one which has been in use in the mill right along. The old one will be retained in commission as before, so that the mill and the village will have the protection of two big pumps instead of one in case of fire.

At the regular meeting Thursday, October 15, Nekoosa assembly No. 235, Equitable Fraternal Union, initiated a class of ten new members secured by Deputy U. R. Gueland. After the initiation refreshments were served and everybody enjoyed a pleasant evening.

On Tuesday the remains of Wilson Lewis, who died at Grand Rapids, Minn., at the age of 74, was brought here for burial, interment being made at Ardenia on Wednesday. Rev. Smith officiating, Undertaker A. H. Kieberg, of this city, being in charge of the remains.

One of the boarders at the county jail just now is Walter Kosloski, who obtained lodging there last Saturday after a hearing in Justice Itelle's court on a charge of abandoning his wife, preferred against him by his father-in-law, Alonsander Wallinski, Mrs. Kosloski being also present in court. It appears that Kosloski migrated to this country a couple of years ago, leaving his wife in Russia, ostensibly to send for her when he had raised enough capital to pay her passage to the "land of the free." This free land business must have affected him improperly, for he came to the conclusion that he did not want his wife here at all and it is asserted that he not only failed to send money to pay the woman's passage, but never contributed a cent for her support from the time he left the old country. It is also said that he had found another on whom to bestow his affections. Saturday morning he was given a hearing and bound over to the next term of circuit court in May, but being fixed at \$500, in default of which he was taken to Grand Rapids to linger in the county jail until the robins nest again, unless somebody comes to the rescue and guarantees his appearance at the proper time.

To Give Rural Carriers Better Pay.

The postmaster general has recommended that the pay of rural carriers be increased. The salary now ranges from \$300 to \$720 a year, the best of them getting but \$60 a month. This amount is only ordinary compensation for a man none, and when it includes the keeping of two or three horses it would seem lamentably small.

### There Are Still Some Suckers

If the suckers were all dead one concern as the Globe Association of Chicago, against which the government lately issued a fraud order, would not exist for twenty-four hours. They advertised to sell a \$3.50 pair of shoes for 98 cents and strange as it may seem, their mails were flooded with remittances from those wanting to take advantage of this philanthropic offer. When will people learn that it costs about so much to buy good goods any place? A catalog house can not sell a \$3.50 pair of shoes, that are good value and worth that money, any cheaper than any merchant in any town in this state. This same rule applies to any other article. But the trouble is people patronize these institutions and imagine they have obtained a bargain, when they really could have bought the same quality right at home for the same or less money. The fact is that even merchants who have been in the business for years, ninety-nine times out of a hundred, cannot detect the difference in the quality of the goods. Some of these days our large catalog houses are going to come up against Uncle Sam's postal laws with a heavy thud, on the ground of fraudulent statements in their advertising.

### The New York World.

The Thrice a Week edition of the New York World now that a great presidential campaign is foreshadowed, hopes to be a better paper than it has ever been before, and it has made its arrangements accordingly. Its news service covers the entire globe, and it reports everything fully, promptly and accurately. It is the only newspaper, not a daily, which is as good as a daily, and which will keep you as completely informed of what is happening throughout the world.

The Thrice a Week World is fair in its political reports. You can get the truth from its columns, whether you are a republican or a democrat, and that is what you want.

A special feature of the Thrice a Week World has always been its serial fiction. It publishes novels by the best authors in the world, novels which in book form sell for \$1.50 apiece, and its high standard in this respect will be maintained in the future as in the past.

The Thrice a Week World's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled paper and the Grand Rapids Tribune together for one year for \$2.25. The regular subscription price of the two papers is \$2.50.

### International Live Stock Exposition, December 1 to 8, 1906, Chicago.

Murdo Mackenzie, president of the American Live Stock Association and manager of the Matador Cattle Company, of Texas, and above all, a student of live stock problems, is a very busy man with his multiplicity of duties in the interest of live stock, yet he found time to give the following short statement concerning this greatest of all shows:

No one appreciates more than I do the good the International Live Stock Exposition has done and is doing for the live stock and agricultural interest of America, and its influence are felt abroad. It is a liberal education to us all. No matter how much we think we already know, there is a never ending fund of information on breeding, feeding and marketing problems to be found at this great show. I only wish that I could raise my voice loud enough to be heard by all my fellow live stock men to advise them to never miss an opportunity to take advantage of its teachings. As the live stock industry grows more and more closely allied with agriculture the coming generation of farmers should be sure to make a pilgrimage to the show and study the various breeds of animals there shown and hear and see the experiences and results of the life's work of the best breeders and feeders of America, who are exhibitors and in attendance at the annual association meetings held during the week of the show.

An Awful Cough Cured. "Two years ago our little girl had a touch of pneumonia, which left her with an awful cough. She had spells of coughing, just like one with the whooping cough and some thought she would not get well at all. We got a bottle of Chamberlain's Cough Remedy which acted like a charm. She stopped coughing and got stout and fat, writes Mrs. C. H. Bussard, Brainerd, Minn. This remedy is for sale by Daily Drug & Jewelry Co.

### Wounds, Bruises and Burns.

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without operation and in about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents any danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by Daily Drug & Jewelry Co.

**Some Nice Monuments.**  
W. L. Boyce, the good natured Granite and Marble dealer of this city, has just completed some very fine work in Forest Hill and Calvary cemeteries.  
One is on the grave of the late Scott Payne which is a Wausau Granite slab over seven feet long, three feet wide and weighing over 500 pounds.  
It lies on a foundation one foot above the ground which is built of Menominee brick.  
It is a very novel and unique design, the top being highly polished and the inscription placed in a shield in raised letters.  
Another one is a beautiful Sarcophagus monument of Barre Granite which has been erected by Mrs. H. Akey.  
Anyone would be well repaid by inspecting these, if they are desirous of seeing some good work.  
Mr. Boyce, while in Milwaukee recently purchased a large stock of finished marble which he has on display at his shop on 2nd St. N., East Side.

# CLINK OF GOLD DRAWS CHINESE

Regular Traffic Done in the Smuggling of  
These Objectionable People to America.

## RICHES FOR "CONTRABAND" DEALERS

Ingenious Schemes Devised to Elude the Watchfulness of  
Customs Officers—Schooner Frolic with Cargo of  
Coolies, Driven Into the Harbor of Provi-  
dence, R. I., a Case in Point.

Boston. It is the lure of wages so high that five years' savings make a fortune that is drawing contraband Chinese these days into the country by novel shifts and in strange disguise.

Officially the smuggling of Chinese into the United States is a crime. Experts in immigration and some inspectors will say when questioned that there is no such thing. As a matter of fact, however, although the Chinese population of the United States is small, the enforcement of the exclusion act is not a matter which is either attempted to gain this prohibited land, plans for getting the contraband into the United States are bolder and more skilfully concocted than ever.

Menopaus sent about the New England coast a few days ago to intercept the Frolic, a schooner yacht, with her crew of 15, called public attention to the fact that the Chinese are still infested of the opportunities offered in this country. The Frolic is a schooner yacht, with her crew of 15, called public attention to the fact that the Chinese are still infested of the opportunities offered in this country. The Frolic is a schooner yacht, with her crew of 15, called public attention to the fact that the Chinese are still infested of the opportunities offered in this country.

From a sentimental point of view it would appear that Chinese would not care to come here for the purpose of being subjected to indignities by the inspectors who are stationed at ports of entry and in the principal cities and towns on both the northern and southern borders. This does not apply to the more conservative of the race, but there are hundreds of shrewder and bolder spirits who see their chance to gain wealth and they make

entry as a merchant, for he is entitled to that privilege under the law. The Frolic, however, at the present time, however, is the best means by which the average Chinaman may find life smooth and profitable.

To get a chance to avail himself of present conditions in the labor market Chinese who have initiative or are under the direction of some American entrepreneur who is bold and successful frequently make their way here by methods underground and over sea.

Officers Fooled by Ingenious Makeup. Although smuggling them across the Canadian border is now almost stopped, some of the most ingenious schemes are contrived with success. It is a popular fallacy that all Chinese look alike and that no matter how they are arrayed they will betray at a glance their oriental origin. There are white men in Vancouver, B. C., who do not accept that theory, for by shrewd manipulation they are able to convert the most thoroughgoing Chinese into an American or Canadian farmer.

A coarse shirt, a pair of blue overalls and a straw hat will work wonders in the hands of an expert. Parties of Chinese going across the Dominion in bond not infrequently leave the train at an or 50 miles before reaching the boundaries of the United States. Here they are taken in hand by one who understands something of theatrical makeup and converted into tramps, farmers or whatever he thinks would be best suited to their talents. After that it is a walk to the border.

Thrifty Celestials Send Money "Home." Express companies which have branches in Chinatown in the larger cities are busy transferring accounts of thirty Celestials to Peking, Hong Kong and Canton. Hundreds of the returning Chinamen are buying large establishments in the trade centers of their native country, while others are investing in farms and plantations. They return with stories of how they are often ill treated in the United States, but they also elicit the American gold which they have garnered. The dependence of the Chinese population is, as investigations made in the principal colonies in the United States show, hardly met by the birth rate or by the influx of the orientals across the borders. The result of all this has been to increase the wages of Chinese workmen in America to exorbitant figures.

Chinese are in demand not only for work as handymen, but as highly paid servants. The prevailing rate for laundrymen is from \$15 to \$20 or more a week, with board. Once a Chinese has learned the uses of irons and starch his services are in demand at the highest prices. To keep up with their work some of the larger Chinese laundries have been obliged to hire white help. Others whose proprietors cannot get along under such an arrangement are selling their establishments. Chinese laundries are at present for sale by the score because of the secrecy in the labor market.

Chinese laundrymen who save \$50 a month out of their wages are common. It costs only four dollars a month to maintain one person in China. A laundryman in this city,

for instance, may send money home to maintain wife and children, also his parents and the parents of his wife. It need be, to say nothing of contributing to the support of a needy member of the clan, and yet be able to have a substantial emergency fund.

Within a year or so an expert laundryman may establish a shop of his own or found a little business in a central ward. If he does he may go to China, visit as long as he wishes and boldly pass through a port of entry as a merchant.

Some of the Chinese under the direction of shrewd agents have even crossed over both the Canadian and the Rio Grande borders garbed as nuns. Most of them are born imitators, and once they have seen their instructor in familiar poses they follow his directions to the letter.

Little is heard these days of the spectacular methods of smuggling the blockade which were once employed by clever Chinese and have dropped in to disuse. Chinese no longer have themselves packed up in boxes or chests and sent by express; neither do they go in vans, which are likely to be suddenly tipped into rivers. There are seldom wild chases across the snow from Canada to the United States, with accomplices of bayonet wounds and harking revolvers. Such methods are irregular and unreliable and they have been supplanted by those which are esteemed as more businesslike.

Chinese are not welcomed in Canada any more than they are here and a head tax of \$500 each is placed upon them. It is regarded as, in fact, prohibitive. Until three months ago, when a law was passed assessing them at \$300 a head, no such tax was exacted in Newfoundland. Chinese could be carried in bond from Vancouver without having to pay the impost demanded of the rest of the Dominion, and the result of this has been that many of the availed themselves quite recently the custom to permit Chinese who were supposed to be on their way to the United States with proper credentials to remain in Canada for 90 days before they were notified to proceed with their journey. By a special arrangement, however, with

the Canadian Pacific the Chinese were rushed through the British territory without having the advantage of the 90 day clause. This arrangement, however, did not hold with certain smugglers in this state who carried passengers to Newfoundland. The United States Chinese inspectors have negotiated an arrangement within the last few weeks under which Chinese supposed to be on their way to the United States must be bonded.

There are now said to be hundreds of Chinese in Newfoundland who have for months been waiting their chance to attain their ultimate goal, the United States.

One of the problems which have worried the Chinese inspectors stationed at Malone, which is the point in this state where many Chinese are brought from Canada, is the nativity clause. Scores of them present themselves and submit to arrest, for they have about them as a usual thing nothing which indicates any claims which they may be inclined to make. Hardly have they been taken into custody, however, when relatives or friends accompanied by a shrewd lawyer, come to the rescue with birth certificates and affidavits which show that the persons detained were really born in the United States and as such are entitled to admission. It is estimated by a prominent inspector that if all the claims to American birth which Chinese are true every Chinese family in this country must have 75 children.

Chinese of intelligence who can give any evidence that they are not laborers, but actually merchants, are able to get into the United States with little trouble. One of the familiar schemes—and it is one which is often successful—is employed by merchants

tying gayly colored sashes and handkerchiefs about their necks. It is along the Rio Grande border, however, that the smuggling of contraband Chinese is conducted with consummate finesse. The scheme, in use there, is followed by a really capable Chinaman, an usually effective. Hundreds of the more intelligent are landed in Havana and at Mexican ports, whence they can make their way to this country.

Chinese immigration is welcomed in Mexico. There is a tradition of the Central empire that centuries ago the western coast of Mexico and opened up commercial relations with the subjects of Montezuma. The Chinese often have in mind this ancient relation when they go to the country over which rules President Diaz. They learn Spanish, adopt the Mexican dress and manners, learn to wear a sombrero with grace and often, after waiting for two years to perfect themselves in being imitation Mexicans, they boldly cross the southern border and make their way to the nearest Chinatown.

Many Cross Border Disguised as Nuns. Some of the Chinese under the direction of shrewd agents have even crossed over both the Canadian and the Rio Grande borders garbed as nuns. Most of them are born imitators, and once they have seen their instructor in familiar poses they follow his directions to the letter.

## On the Edge of the Cliff

By Cosmo Hamilton

(Copyright, by Joseph H. Bowles.)

"Are you listening?" she cried, eagerly. "I give in about the color of the paper. You shall have your green. I shall like it because you like it. Is the wind carrying my voice away? Can you hear me?"

She was lying on the very edge of the cliff in a manner that made my blood run cold. Her beautiful face was very white, very thin; and her hands, clutching the short, rank grass, seemed almost transparent. There was the same attempt at gaiety in her dry, trembling voice that I had noticed the previous night, and the words she spoke were the same.

It was on my way back from a ten-mile walk, during which I had watched the sun sink into a bed of crimson blankets, and the moon rise to find herself welcomed by every living star, that I came upon the crouching girl, and heard her cry.

I gathered that the man she was speaking of was for some purpose or other, on one of the ledges of the cliff, 10 or 12 feet down. There were several of various widths on that portion of the cliff, wide enough, some of them, to take three or four people standing close. I gave no further thought to the matter.

A shadow flickered in front of me. From the ledge and width of it I knew that it was thrown by the great body of Ewell, the sea palator, who

"I watched them day after day. I could see they were very much in love. Towards the end of May a snowball of excitement was thrown into the village, and grew larger and larger. They were to be married on June the fifth by her father.

"The fifth of June came near. I wasn't painting at all. In fact, I wasn't painting at all. I had one of those absurd fits of depression on me. You know, what? I heard he was going away for the last fortnight. Some conventional idea of propriety, I take it. I wouldn't have gone for all these grandmothers' foolishnesses rolled into one. Four out of the most wonderful of men can live wasted! Think of it. However, he was going. And the day before his last day a glorious storm came on. I had only seen one like it before. I had a little yacht at that time, for the water was so high that a hundred splinters in the nearest cove. I landed among 'em, more by luck than judgment. I don't know how Trent came to be on the cliffs in the middle of the night. Perhaps the devil of it had got into his blood, as it always gets into mine, and made him go out and fight on storm as I always do.

"The wind is no respecter of persons. It must have caught him up and bowled him over the cliff. There was a ledge 30 feet down. He landed there!"

"Alive!" I cried. "Dead. They say he cried 'Mary' as he fell. Whether that is romance or not, I don't know. At any rate, barely half an hour after he must have fallen, I was standing by his watch, which had stopped at 11:40—she was on the cliff above him, crouching as you saw her crouching, calling to him and cheering him, and telling him—I have heard her several times, saying all that she said that night, over and over again—that she had ordered some fisherman to come with ropes. 'Darling, I would come to you if I could jump. But I will talk all the time till they come, so that it won't seem so lonely for you. I love you—I love you. Do you hear that? Dick? No, I can't hear you. I know you have answered and what you said.' And when they came with ropes, there she was, still chatting and laughing, on the edge of the cliff, clinging to the grass. God knows why the wind allowed her to stay there. Perhaps she felt it no power at that spot. And she was saying: 'I give in about the color of the paper. You shall have your green. I shall like it because you like it. Is the wind carrying my voice away? Can you hear me?'

Ewell moved suddenly on again. It was several minutes before he spoke. "When she saw them she fainted. I was among them. I was only just in time to catch her as she was slipping over. I carried her to her father's house. Poor little brave heart, how wet she was! Her father buried her. And every night since then a fortnight ago, I have heard her voice, and she goes and keeps him company, saying the same things all ways, until she suddenly remembers that he has been taken away."

"What then?" "Then she gets up, and, on her way home, passes through the churchyard, leaving a kiss upon his grave."

"She is not—?" "No," he said, roughly. "She is sadder than you or any painter. Hers is love, just love."

Only once again, by accident, I found her crouching on the very edge of the cliff, with a face as white as the rank grass with her transparent hands. But as I hurried away, her clear, gay voice followed me, and her words rang in my head:

"Are you listening? I give in about the color of the paper. You shall have your green. I shall like it because you like it. Is the wind carrying my voice away? Can you hear me?"

Siberian Bridal Custom. In some parts of Siberia a bridegroom, on arriving home, commands his wife to take off his boots. In one is a whip and in the other a purse. The contents of the boot she removes for removal of the reverse to her. A very kind husband will put a purse in each boot, and omit the whip, to make her believe that her choice is auspicious.

Ready to Gratify Her Wish. Rev. L. E. Hawley, of Sebring, O., who is the Protestant candidate for governor, preaches very powerful and graceful sermons.

In a recent sermon Mr. Hawley said that the average woman had a higher sense of beauty than the average man, and he clinched with an anecdote this statement:

"An American girl," he said, "visited some English relatives in Devonshire, and one moonlit evening as she was walking with a young man, her

cousin, down a lovely lane a night-lark came from the thicket began its passionate song.

"So clear was the moonlight that the brown bird was quite visible poised on a branch, with head thrown back and pulsating breast."

"The young girl listened, enraptured. Then she cried: 'A nightingale! Oh, I have so long wished to have one.' 'Cousin,' said the young man, 'whipping a pistol from his pocket, in two seconds the bird shall be yours.'"

Suspicion Aroused. "The population of St. Petersburg is still growing," said the census official, dubiously.

"We have to see about that," answered the czar. "The police are evidently not doing their duty in sending people to Siberia."—Washington Star.

than I do. On the contrary, I believe she took a keen joy in battling with them, head tucked down, arms swinging, her dress clinging and showing the grace of her, the lissomness of her, the young strength of her laugh. "Oh, my dear fellow, what a laugh! I used to grieve over my palates as it was borne, like a bundle of feathers, in the breeze. You know the sound a thrush makes sometimes, when all is well with its song? A series of flippant notes in quick succession—a little volley of bell-like notes rising in the scale? Heaven! how she laughed! But he wasn't her brother. It didn't really matter. I don't suppose— At any rate, he wasn't her brother. Like the one wise man alive, he was engaged to be married to her, poor devil!—I wouldn't ask who his was—she was a minister's daughter, Mary Terrance—but I found out soon enough. The wind blew a gale from the southwest. I was at work under the cliff with my easel strapped to a rock. As they swung past, arms in air, her red tam-o'-shanter whirled off her head, and carried high in the air, against my face. You know the kind of stupendous idiot I am. You know the consummately futile things I do. I kissed that tam-o'-shanter, and the face of that young man, standing with outstretched hand in front of me, put the cap out of joint for color. I glared at me as though I had committed a crime. And I knew. A brother would have raised his eyebrows. This began lowered them. I was told all about him later. A lawyer, or something, who didn't practice. By name Trent, Richard Wolcott Trent, a rich man, poor devil!"

He paused again, walking harder than ever, having his eyes on the ground.

"I watched them day after day. I could see they were very much in love. Towards the end of May a snowball of excitement was thrown into the village, and grew larger and larger. They were to be married on June the fifth by her father.

"The fifth of June came near. I wasn't painting at all. In fact, I wasn't painting at all. I had one of those absurd fits of depression on me. You know, what? I heard he was going away for the last fortnight. Some conventional idea of propriety, I take it. I wouldn't have gone for all these grandmothers' foolishnesses rolled into one. Four out of the most wonderful of men can live wasted! Think of it. However, he was going. And the day before his last day a glorious storm came on. I had only seen one like it before. I had a little yacht at that time, for the water was so high that a hundred splinters in the nearest cove. I landed among 'em, more by luck than judgment. I don't know how Trent came to be on the cliffs in the middle of the night. Perhaps the devil of it had got into his blood, as it always gets into mine, and made him go out and fight on storm as I always do.

"The wind is no respecter of persons. It must have caught him up and bowled him over the cliff. There was a ledge 30 feet down. He landed there!"

"Alive!" I cried. "Dead. They say he cried 'Mary' as he fell. Whether that is romance or not, I don't know. At any rate, barely half an hour after he must have fallen, I was standing by his watch, which had stopped at 11:40—she was on the cliff above him, crouching as you saw her crouching, calling to him and cheering him, and telling him—I have heard her several times, saying all that she said that night, over and over again—that she had ordered some fisherman to come with ropes. 'Darling, I would come to you if I could jump. But I will talk all the time till they come, so that it won't seem so lonely for you. I love you—I love you. Do you hear that? Dick? No, I can't hear you. I know you have answered and what you said.' And when they came with ropes, there she was, still chatting and laughing, on the edge of the cliff, clinging to the grass. God knows why the wind allowed her to stay there. Perhaps she felt it no power at that spot. And she was saying: 'I give in about the color of the paper. You shall have your green. I shall like it because you like it. Is the wind carrying my voice away? Can you hear me?'

Ewell moved suddenly on again. It was several minutes before he spoke. "When she saw them she fainted. I was among them. I was only just in time to catch her as she was slipping over. I carried her to her father's house. Poor little brave heart, how wet she was! Her father buried her. And every night since then a fortnight ago, I have heard her voice, and she goes and keeps him company, saying the same things all ways, until she suddenly remembers that he has been taken away."

"What then?" "Then she gets up, and, on her way home, passes through the churchyard, leaving a kiss upon his grave."

"She is not—?" "No," he said, roughly. "She is sadder than you or any painter. Hers is love, just love."

Only once again, by accident, I found her crouching on the very edge of the cliff, with a face as white as the rank grass with her transparent hands. But as I hurried away, her clear, gay voice followed me, and her words rang in my head:

"Are you listening? I give in about the color of the paper. You shall have your green. I shall like it because you like it. Is the wind carrying my voice away? Can you hear me?"

Siberian Bridal Custom. In some parts of Siberia a bridegroom, on arriving home, commands his wife to take off his boots. In one is a whip and in the other a purse. The contents of the boot she removes for removal of the reverse to her. A very kind husband will put a purse in each boot, and omit the whip, to make her believe that her choice is auspicious.

Ready to Gratify Her Wish. Rev. L. E. Hawley, of Sebring, O., who is the Protestant candidate for governor, preaches very powerful and graceful sermons.

In a recent sermon Mr. Hawley said that the average woman had a higher sense of beauty than the average man, and he clinched with an anecdote this statement:

"An American girl," he said, "visited some English relatives in Devonshire, and one moonlit evening as she was walking with a young man, her

cousin, down a lovely lane a night-lark came from the thicket began its passionate song.

"So clear was the moonlight that the brown bird was quite visible poised on a branch, with head thrown back and pulsating breast."

"The young girl listened, enraptured. Then she cried: 'A nightingale! Oh, I have so long wished to have one.' 'Cousin,' said the young man, 'whipping a pistol from his pocket, in two seconds the bird shall be yours.'"

Suspicion Aroused. "The population of St. Petersburg is still growing," said the census official, dubiously.

"We have to see about that," answered the czar. "The police are evidently not doing their duty in sending people to Siberia."—Washington Star.

### Pretty Decorative Work.

MOUNT-MELICK AND HEDEBOW EMBROIDERY. Best for All Forms of Ordinary Household Use—Care in Washing is a Matter of Vital Importance.

Mount-melick work, strictly speaking, is white upon white. A new kind recently seen is color on white.

Mount-melick work, strictly speaking, is white upon white. A new kind recently seen is color on white.

The uppermost flower is done in pale blue, the central satin stitch petals having two worked in weaving stitch on each side, all being outlined by a single thread of the light blue couched down with a darker shade.

Authorities on the subject of Denmark, Hedebo being the name of a locality in that country where this special embroidery is much done by the peasants. Curiously enough, it is obtaining in Italy very much indeed. It can be brought to great perfection and

brown calico, or tulle grosse, which is seen in that. The best white used for old mount-melick work is too hard for the color permissible and characteristic of the new style.

The objects for which this work is suited are all those of ordinary household use which lend themselves to decorations—tray, and sideboard cloths, cushion covers, such as laundry bags, work bags, tea cozies, etc. The couched work perfectly in hot soap and water if ordinary care is used. No soap containing alkali should ever be employed in washing colored embroidery, nor should the work be left in a wet heap. All the soap should be rinsed out and the article quickly dried and ironed damp as it lies face downward on linen placed over a board, so that the color, if there is any, should not be flattened. Among the stitches used in Fig. 1 are found the following: Chata stitch in two rows, worked closely together, framing bars sewn down with a contrasting shade; satin stitch worked evenly and closely so as completely to con-

## Ideas for the Hostess.

Suggestions for Two Very Enjoyable Entertainments.

A Farewell Party. A young correspondent signing herself "Pansy" asks for suggestions for a "Farewell" party. The entertainment is supposed to furnish everything.

A hostess provides the refreshments and entertainment for her guests, and that must be what our inquirer means by "everything." There are no special games for a "farewell" party. The centerpiece on the table is usually a large vase of flowers, a toy as a train of cars, a steamboat, a toy car loaded with trunks, and the conveniences or place cards are suitcase and trunk candy boxes filled with small bonbons. If the friends of the going away guest wish to contribute towards a parting gift, it is a very pretty compliment to the occasion.

drinking cup, a love case or traveling sewing case are all suitable. Or the affair may be a "farewell" shower, each guest bringing some appropriate little remembrance. Even letters, books, boxes of confectionery, etc., are all suitable. It is better, however, not to have any set scheme of entertainment. Let every one talk without restraint.

A Nut Party. The fall with its frosts makes nut parties in the country seasonable. For the unfortunate mortals who cannot enjoy a genuine outdoor party, the next best is to have one in the house. Decorate with autumn foliage, branches of trees and make the room assume just as woody an aspect as possible.

After the guests have arrived, have a lot of old "chestnuts" played and sung, such as "Annie Rooney," "Only a Pansy Blossom," "After the Ball," etc. This will make much merriment and will be classed as "musical chestnuts." Then pass out shaped booklets containing the following questions. The answer to each query is the name of a nut.

1. Its first syllable is a spring vegetable.—Peanut.

2. The penalty of tight shoes.—Acorn.

3. A souvenir of South America.—A Brazil nut.

4. Its first part is a barrier of brick or stone.—Walnut.

5. Two-thirds of it makes our daily bread.—Butternut.

6. Its first half is a beverage.—Cocoanut.

7. Two boys' nicknames.—Phil-Bert (Shbert).

8. Part of the human body forms the first syllable.—Chestnut.

TREATMENT OF THE HAIR. No hair needs to be shampooed oftener than once in three weeks, and then the work should not be done too vigorously. The hair should be spread upon it. This is given time to dry on. It is then washed with a shampoo of warm, soft water. That is the most thorough shampoo. But there are others, and the best is the egg shampoo.

The hair is wet and two eggs are rubbed into it, the yolks only. It is shampooed in a dozen waters, so as to rinse it well, after which it is dried and aired. This is very good for the hair.

There are old-fashioned, demure faces that require a style of hair dressing all their own. The hair is parted in the old sweet way. And it is rolled back from the face on each side. The hair is twisted low in the back of the neck and a curl is pinned in. This falls over the neck and shoulders. A rose is pinned on the hair and another rose is pinned in the hair.

A Note of Color. Varied shades of blue are very popular just now, and tend to make much more delightfully combinable than was formerly the case, more especially if a note of white or black is introduced.

Color should be a distinctive note to a woman's attire, and having decided what colors are becoming to her and best harmonize with the tint of her eyes, hair and complexion, if I were woman who wishes to look her best, after what woman does not? I be faithful to them, despite the whirl and vagaries of fashion, and if she will but return to them again and again will find herself well rewarded for her fidelity.

## AMONG CRANBERRY MEN.

EDITED BY W. H. FITCH.

(All communications and special exchanges relating to this department should be sent to Cranberry, Wood County, Wis.)

### A Word of Advice.

As one of the objects of the Wisconsin State Cranberry Growers' association is to establish and take measures to insure the use of uniform packages for marketing the fruit so as to secure the confidence of dealers and purchasers by this evidence of fair and honorable dealing, the following point of view taken by the New York Packer, it is believed will be read with more than ordinary interest.

The subject of proper grading and packing of fruits and vegetables has, perhaps, in the estimation of some, been worn threadbare by frequent comments, but it is of so much importance to growers, the trade and the consumer, and particularly to the grower, as to make it worth while to give a few suggestions. The Packer has for years been the bitter enemy of dishonest commission merchants, but the grower who sets about to beat the public by dishonest packing, or in other ways, is equally dishonest.

Shippers are often as much to blame, and in many cases more so, than the commission merchant for losses that are only too easily incurred. And it is not alone in the commission merchant's practice in packing up his pack of fruit, but it is his moral obligation and he should see to it that each and every item he packs is packed in the best possible manner. Leaving out of consideration, however, the moral side of the question, it will pay him. Too frequent complaint is made that berries are topped with fine quality, but that the packages are filled for the most part with rubbish; another common complaint is, that rates of fruit and vegetables are so loaded that all the good stuff will be found near the car doors upon opening them with almost worthless goods in the ends. Such shippers evidently think that they will do business only once with receivers to whom such shipments are made. In this they are undoubtedly right, but it might be added that for the most part, such crookedness is detected too early and it does not work to the profit of the shipper even in the first instance.

The carefully and honestly packed strawberries put out by the big Neosho Strawberry association at Neosho, Mo., invariably bring good prices even when markets are glutted. The writer has actual knowledge of cases where their berries have sold for \$2 and upward per case when at the same time, in the same days, other berries have gone logging at 50c and less. There is always a good demand for good stuff and a reputation for honest packing is a jewel worth a big price to any grower or any association.

A good sign on a fruit package is the name of its packer, together with the brand. Buyers take it as a favorable indication of the grower's honesty and reliability when he is willing to put his name or label on his packages. It matters not to the grower whether he sells to a. b. c. or ships on consignment. It is in his best interest to pack just as carefully

as tho for his personal use. It is worth something to every grower to know that when his shipments arrive in any market the trade and the consumer, as well, will fight for his fruit and for his brand, because they know his reputation. Many growers in a short while can establish themselves in the same way.

So we say again, as a business matter, honest packing pays. That is the reason so much has been said about proper grading and packing. Quite a large percentage of fruits and vegetables arriving daily at the present time, in most of the large markets, exhibit plenty of evidence of downright carelessness, if not dishonesty in grading and packing at the point where shipment originated. Growers who ship such stuff are rarely ever satisfied with the returns, but they have only themselves to blame.

### Recipes.

**CRANBERRY JELLY**—Take two quarts of cranberries and boil until very soft. Strain out the juice and add as much sugar as there is juice. The juice will be more in the form of a thick pulp, for you have strained it not thru a cloth but thru a coarse sieve. Now boil for twenty minutes, add a teaspoonful of gelatin dissolved in cold water and pour into a mold. Set away to cool. Send to the table turned out of the mold and garnish with meringues. For the meringues beat the whites of four eggs until very stiff. Add a third of a teaspoonful of cream of tartar. Whip again. Add a cup of sugar, salt, and a little vanilla. Press then a thin upon oiled paper and bake in an oven so slowly as only to dry them for half an hour.

**CRANBERRY SAUCE**—One quart cranberries, one pint of water and one pound of granulated sugar. Wash the cranberries in cold water, put them into a porcelain or granite kettle, add the water, cover the kettle and bring to the boiling point. This will take about five minutes. Press them thru a colander, add the sugar and stir over the fire, just a moment, until the sugar is thoroughly melted and turn out to cool. Serve with poultry, game or mutton.

**CRANBERRY PUDDING**—Sift three cups of flour with a half teaspoonful of salt and stir in a cupful of molasses, a small cupful of sour cream, two beaten eggs and half a teaspoonful of soda dissolved in a little boiling water. Last of all, beat in a cupful and a half of heated cranberries thoroughly drained with flour. Turn into a greased mould and steam for at least two hours. Eat with a hard sauce.

**CRANBERRY BLANC MANGE**—Steam the fruit in water until soft. Strain off the juice and add one cup of sugar to each pint of juice. Place in a double boiler and when boiling hot stir in two tablespoonfuls of corn starch, which has been previously wet in cold water, to each pint. Cook two or three minutes and pour into molds to cool. Set on ice to harden. To be eaten with cream and sugar.

### ARPIN.

Mrs. Witman returned from Madison last week where she had been to attend the funeral of her father. Mrs. Shumann of Chicago has been here the past week making arrangements for her son Leo to attend the Bethel Academy.

The social at the hall last Friday evening was quite well attended in spite of the rainy weather. Miss Emily Sanville of Vesper spent Sunday with Mrs. George Gardner.

Heretofore Sunday school will be held at 2 p. m. instead of 10:30 a. m. Mrs. Rheing is entertaining her mother and sister from away.

Mrs. Paul Krap and daughter of Vesper visited at Nick Elmer's Saturday and Sunday.

Wm. Papp of Vesper was seen here Sunday afternoon.

### VESPER.

Vesper is going to have a depot, a joint depot built by the C. and M. W. and the Central. The business of Vesper has increased so rapidly that a depot is a necessity.

Vesper school house is nearing completion. The inclement weather retarded the work the few part of the week, but an extra force will be put to work.

Henry Treutels left for North Prairie Monday via the C. M. St. P. R. R. to visit friends and relatives. D. McVicar, our genial tumbler, has a brother visiting him from New London, Wis.

Mr. Murtagh has two daughters visiting him one from Seattle and one from Ravenna, Wis.

C. S. Goldworthy transacted business in Grand Rapids on Monday.

Candidates for offices are bubbling around with their bright smiles and good cheer. Wonder if they will know us after election.

**Wisconsin Has 2,578 Autos.**

Secretary of State House has issued a statement showing there are 2,578 automobiles licensed in Wisconsin. The total value of these machines is estimated at \$3,000,000, the insurance carried on them at \$2,000,000 and taxes paid on them at \$200,000. Milwaukee has 500, the largest number of any city in the state. Madison is second with seventy-five. The state charges \$1 each for registering the machines in the secretary of state's department and 50 cents for transferring certificates. A large pamphlet containing the numbers and names and addresses of owners of all automobiles will be in a few days be sent to all chief of police, sheriffs and city and county clerks in the state.

—Of all the stories that have taken the public fancy during the past few years, probably none have achieved so much distinction as that of "A Mad Love," the great masterpiece, "A Mad Love," under the direction of Edward J. Satter, which appears here for the first time at the Grand Opera House Tuesday, Nov. 6th, is a modern adaptation of this famous story, by the brilliant young dramatist, Mr. Edward Locke. The play is one of the few dramatic surprises of the year. "A Mad Love" has been tried and found true. A play of the people for the people. Miss Lydia Powell, the talented 18 year old California actress, will be seen in the leading role with an excellent supporting company of New York players.

### ADDITIONAL LOCALS.

J. B. Grignon is in Nekeosa today on business.

M. S. Pratt returned this week from Potter's marsh where he has been employed in putting up a cranberry cleaning machine.

Mrs. John Hutchinson returned last night from a few days visit at Poyette where she was the guest of her mother, Mrs. M. B. Benett.

Mike Etchelmann was brought before Justice Keyes last Friday on a charge of having stolen 25 pounds of scrap iron of W. H. Lawrence. He pled guilty and was fined \$22.25.

Tony Kuntz left on Saturday for Marshall where he spent Sunday with relatives. From there he will go to Minneapolis before returning to Omaha where he is employed by the Omaha Hdw. Co.

Mr. and Mrs. Arthur Arpin left this morning for their home in Atlanta after making a short visit at the home of Mrs. Arpin's mother, Mrs. C. Arpin.

Mr. Arpin also visited at the home of her parents at Milwaukee, being called there by the serious illness of her father, Geo. L. Williams.

Louis Reichel returned on Monday from Rosebush where he had been called on Thursday by the serious illness of his mother. When he arrived home, however, he found his mother dead, having succumbed the night before to an ailment.

The funeral was held on Saturday. Deceased was 82 years of age.

Guy Wood, Henry Demitz, Dr. Chas. Pomainville and Robert Morse returned on Monday from Rice Lake where they had succeeded in bagging 22 ducks during the six days hunting.

In returning home they came down the Eau Claire river as far as the Wisconsin and then down that stream to this city. They report ducks very scarce even the the weather was just what was wanted for this sort of sport.

**Students from Wood County Enrolled in the College of Agriculture.**

The number of students enrolled in the College of Agriculture at the University of Wisconsin is larger than ever. The registration in the four year course has just closed with an enrollment of 130.

The short course in agriculture does not begin until December 1st, but the advanced register shows that there are 250 young men who have already applied for admission. Those from this county who are planning to take the Short Course are Elmer Bennett, and Guy Potter, of Grand Rapids.

The Short Course is designed to meet the needs of the busy young farmer who can be spared from the farm only for a few weeks during the winter months, but who, nevertheless, feels the need of practical instruction in every-day farm subjects. Every young man, over sixteen years of age, interested in farming, should take this course. For application blank and full particulars write to D. H. Otis, Madison, Wis.

**School Board Convention.**

The School Board Convention for Wood County will be held at the Opera House in Grand Rapids, November 7th, 1906. The law provides that the district clerks shall and directors and treasurers may attend this convention; that each member present shall be allowed two dollars and mileage at the rate of three cents per mile each way, going to and returning from such meeting, said sum to be paid from any money in the school district treasury not otherwise appropriated; that the county superintendent shall issue to each member of attendance a certificate which shall be filed with the school clerk and serve as a basis or evidence for drawing the necessary warrant upon the district treasury. See chapter 105, laws of 1905.

This will be your convention. Be perfectly true to ask questions and exchange experiences. Every school district should be represented by at least one member of the school board and all the members of the board should attend if possible.

Enrollment at 10 o'clock a. m. Certificates of attendance will be given out at the close of the afternoon session.

Robert Morris, County Supt. of Schools.

**Want a State Park.**

The state legislature will be asked to donate \$100,000 this winter for the purchase of the Devil's lake region, composed of 7,000 acres, the two principal owners being Senator William F. Vilas and L. W. Claude, both of Madison. For several years there has been a growing agitation in the state for the purchase of this land, to be used as a state park on account of the beautiful scenery.

Devil's lake is situated in nearly the geographical center of Southern Wisconsin. It is four miles from the city of Baraboo and thirty miles from Madison. The region was recently explored by President Charles B. Van Hise, as a geologist. The region is picturesque and has abundance of trees and wild game.

W. H. McFetridge of Baraboo, chairman in charge for the proposed project, is interesting the people of Madison in the undertaking. He says he was met with encouragement everywhere.

"The land about the lake is owned principally by Senator Vilas, Mr. Claude and Mrs. C. K. Kirk of Kirkland," he said. "On the eastern slope of the bluff a Pennsylvania concern has installed a stone crusher. It is partly to prevent a complete destruction of the bluff that the matter should be taken up by the legislature this winter."

Shirley W. E. Little and Jesse Hopgood left this morning for Harshaw where they are going to get things in readiness for deer hunting.

A Mad Love.

"A Mad Love," presented at the Grand Theatre last evening, by the Edward R. Salter company out of New York, with Lydia Powell starring as Helen Talboys, furnished the audience with one of the best offerings of emotional plays seen at that theatre this season. The compassionate acting and utter abandonment of Miss Powell to the part and of the excellent support and training of the cast allowed not a single moment in the movement of the picture of a life, seemingly wrecked by an injudicious marriage, only to end happier in a better union.

Michael Audley, opposite to Helen Talboys, portrayed the clean noble sentiment of one whose life has always been open and above board, willing, even in the face of grave accusations to stand by the one (Helen Talboys) through the crucial moment out of which she comes acquitted of all. George Fisher, as "Johnson," butler at Audley court, served to relieve the tense moments and won the audience by his good unsuspicious trust in those whom he loved and served.

The stage settings were in harmony with the spirit of the play and the costuming was of that simple execution, which borders not on gaudiness and vagary.

If the play were to visit the local theatre again, it would be assured of a liberal patronage.—The Richmond Palladium.

Several sanitary officers with good surgical training being present, out of 100 soldiers wounded in the abdomen 50 were operated upon by the Japanese, the 50 others left alone, the only treatment consisting in absolute rest and in keeping the external wound open. Of the 50 soldiers operated upon 49 died, of the non-operated 49 survived. This striking result indicated the necessity of treatment of the abdominal wounds throughout the war.

Some Facts Regarding This Valuable and Graceful Tree.

The hemlock fir, *Tsuga Canadensis*, is a tall evergreen tree reaching a height of 80 to 100 feet, with a trunk diameter of four feet. The young branches are slender and drooping at the tips, making it the most graceful of our native evergreens. The general appearance of the foliage is softer and more plume-like than the spruces and balsams.
